

TERMS OF PARTICIPATION IN THE TRAINING PROGRAM OF E-LEARNING

STUDENT AGREEMENT

The careful study and acceptance of all the terms below constitutes a prerequisite for the participation of the student in the training program of the **International Academy of Classical Homeopathy** (hereby referred to as the “Academy”), which is described below, as well as for the use of the relevant electronic platform.

CONTENT OF TRAINING PROGRAM

Within the context of its training activity, the Academy provides an e-learning training program in the area of Classical Homeopathy, which has been exclusively based on the tutoring of Professor George Vithoulkas and has been developed in accordance with the principles of Classical Homeopathy. In order to achieve the aforementioned aim, the Academy has created a special “Training Internet Site” (e-learning platform), which can offer remote access to parties who are interested in participating in the aforementioned e-learning program from any country in the world.

METHODOLOGY OF TRAINING - ON LINE EXAMINATIONS

The aforementioned program is divided into six thematic units: Theory, Materia Medica, Repertorization, Questions and Answers, Topics, Cases and Analysis, which are offered to the student in video and audio form. As for the supervision of the students, the Academy, apart from Professor George Vithoulkas, will have moderators who will have certified excellent knowledge and experience in the aforementioned subject of Classical Homeopathy.

In the course, there are tests at the end of training modules, final online exam and a forum in which the students write their questions and the moderator-tutor is answering.

The e-learning program consists of 300 hours of video & audio, 300 hours of study and 150 hours of clinical practice (total: 750 hours).

Parallel with every each video, there are indications of the portions of books of Hahnemann, Kent and Vithoulkas, corresponding to the teaching, that the students have to study.

The students shall have the obligation to participate in the tests of the moderator and to submit the assessments required from them (they do not have this obligation if they want only a Certificate of Attendance). The student has the obligation to see the whole of the program within a time period of 24 months (2 years) from the time of his/her submission. In case the student fails to see the complete program within the aforementioned time period, then their access to the electronic platform will be suspended.

The right for a participation in the diploma examinations is extended to all Medical Doctors, Dentists, Veterinary Doctors and Homeopathic Practitioners as well as those who like to become Homeopathic Practitioners and who have the legal right to practice

homeopathy in their country. As a pre-requisite for receiving the Diploma of IACH, all students are required to submit ten (10) cases with follow-ups for six months.

Especially for Greek residents, the right for a participation in the diploma examinations is extended to all Medical Doctors, Dentists and Veterinary Doctors. All other students will receive a Certificate of Attendance.

After the approval of the Moderator that the student has completed the attendance of the program, the student shall be able to participate in the examinations that will take place ONLINE (after the completion of the program, the student can take part to the exams at a date and time of his/her choice). The student shall have the right to have access to their electronic papers within a deadline of one month after the announcement of the results. In case of failure in the examinations, they shall be able to participate again after six (6) months. Our decision about the cases is that you can take the examinations before submitting the cases, but that you will only get the diploma once the cases are submitted and approved. Those who are new to homeopathy should do the full course before submitting cases. The cases should be submitted the latest one year after finishing the studies. The cases have to be treated by the student himself in order for us to be able to see how he approaches and evaluates them. Those who will not take the diploma will be awarded with a Certificate of Attendance. This under no circumstances gives them the right to practice homeopathy in their respective countries. This course can be attended by scientists of biology, physics, chemistry, biochemistry and related sciences. This is done with the purpose to open up areas of research for all questions related to scientific proof of homeopathy.

POSSIBILITY TO SEE A SAMPLE OF THE TEACHING

The student shall have the possibility to watch a sample of the lecturing of the Professor George Vithoukas in the first page of the platform and more specifically in the address <http://vithoukas.edu.gr> or in the youtube channel of Prof. Vithoukas

RIGHTS OF THE STUDENTS

The student shall have the following rights:

- To watch each lecture for up to **three times**, whenever they wish, within the time period of the twenty four months, for which the program will be available (upon the expiration, the video will be secured and they will not have access to it any more),
- To participate in the various fora that will be available in the platform, to post and to exchange views. The Moderators will monitor the discussions, so as to provide personal or team answers,
- To submit questions to the Moderator (only in the English language). The Moderator shall have the obligation to answer within twenty four (24) hours from the submission of the question,
- To perform self-assessment exercises, which give the student the possibility to assess whether they have understood the training material,
- To have access to the books of the Professor George Vithoukas with the possibility to search words or phrases through the website www.vithoukasbooks.gr

- To have online access to the Website (portal) www.vithoulikas.com, to the organon of S. Hahnemann, the online “Materia Medica” (Kent, Boericke, Allen, Farrington, Dunham, Nash etc.), as well as to the articles of the Professor George Vithoulikas.
